A MODERN HOTEL Located in the Sierra Foothills

As architects, designers, engineers, and builders, nothing is as rewarding as seeing a project take shape. This 5-story hotel is 120,000 square feet, comprising 150 guest rooms, including 25 suites and an outdoor terrace with a pool and fitness center. We’re proud of this team’s work to bring the Red Hawk Resort + Casino Hotel to life for our client.
